

Why is having good credit so important?

Your credit not only determines interest rates on loans but it can also determine where you live, what you drive and even where you work!

Can I do this myself?

Yes. You can work on repairing your credit yourself. However it is very strategic and time consuming. Without the proper education on the FCRA and how it works, an individual trying to do this for themselves can make a nightmare of a situation even worse. Leave it to the pros!

What can be removed?

- ✓ Inquiries
- ✓ Collection Accounts
- ✓ Charge Offs
- ✓ Late Payments
- ✓ Student Loans
- ✓ Repossessions
- ✓ Tax Liens
- ✓ Judgments
- ✓ Public Records
- ✓ Bankruptcy
- ✓ Medical Bills
- ✓ Foreclosures
- ✓ And more!

HOW LONG DOES THE PROCESS TAKE?

Keep in mind that the damage done to your credit wasn't done overnight so naturally the process cannot be fixed overnight. Nobody in the business can neither expedite the process or guarantee a certain outcome. Typically a consumer will receive the first results in 30 days however the complete repairing process can take up to 180 days and the restoration and rebuilding process can take anywhere from 6-12 months to achieve full results. Our NEW direct contact method obtains permanent results in as little as 10 business days.

We offer a vast array of methods:

- ✓ Challenge verification Disputes
- ✓ Online Disputes
- ✓ Custom Disputes
- ✓ Direct Contact Disputes

Result turnaround time can vary depending upon method and can be from 10 business days to 30-45 calendar days.

WHAT MAKES UP YOUR CREDIT SCORE?

Why should I hire a credit repair specialist rather than doing it myself?

We have years of experience and extensive knowledge of the FCRA. Knowing the loopholes that protect consumers will allow for maximum results and permanent deletions.

*****New Method Alert*****

Direct Contact with creditors and collection agencies--- Results as little as **10 business days**. Ideal for **charge offs, collections & medical bills**.
